FOR IMMEDIATE RELEASE

**GRINDS & GRAINS COFFEE AND CEREAL BAR OPENING IN NEW PALTZ
COMPLETE WITH GREAT COMPANY, ARTWORK, AND GOOD VIBES**

[New Paltz, New York, May 2019] - Calling all caffeine, cereal, and good vibe addicts, Grinds & Grains is every early riser's dream come true. Whether the crunch of a good bowl of cereal is the go to or an espresso shot with almond milk Grinds & Grains has it all.

In the creatively inclined town of New Paltz, NY Melanie Caron and Rashid Chambers ventured from their corporate jobs to create a new business that would not only bring joy to the public, but a new sense of community to the neighborhood. Grinds & Grains will partner with Partners Coffee Roasters (formerly Toby's Estate) located in Brooklyn, NY to bring the finest espresso and drip coffee to the public. They will offer a wide range of espresso infused drinks and drip coffee in combination with over 20 different cereals and toppings to choose from. Inclusivity is a prevailing concept for this new business as they will offer gluten free and dairy free options as well as traditional, vegan and gluten-free freshly baked pastries from a local bakery. Grinds & Grains also offer delicious and healthy locally made granola from Raspberry Fields Farm located in Marlboro. The café will seat up to 17 customers at a time in a brightly colored venue complete with locally made tables and artwork.

"I am an energetic person who lives each day to the fullest. I love putting positive energy into the world. I do at least one good deed a day for someone (whether I know them or not). I've always told my children imagine if everyone in the world did this what the world would be like! So, I wanted to open an establishment that was unique and vibrant and made someone's day a little (or a lot!) better. And Grinds & Grains, Inc. was born!" said Melanie Caron

Grinds & Grains plans on opening its doors at the end of April 2019 and will continue to bring anyone traveling through the town of New Paltz espresso and happiness as soon as they walk through the doors.
